COLD GLUE

WOOD GLUE

Available in:

- 125ml
- 250ml
- 500ml
- 5 litre

Uniseal Cold Wood Glue is a strong adhesive sealant used to hold pieces of wood tightly together. Our glue is formulated to penetrate wood fibers, leading to bonds that can be even stronger than the wood itself.

CONTACT ADHESIVE

Uniseal Contact Adhesive can be applied to most nonporous materials. Uniseal Contact Adhesive works best on:

- plastics
- rubber
- glass
- metals
- veneers.

It can also be used for gluing large surfaces such as countertops in kitchens and

Available in:

- 250ml
- 500ml
- 1 litre
- 5 litres

PVC GLUE

Uniseal PVC Weld a is a solvent based welding adhesive that provides a strong joint and seal when joining rigid PVC pipes and fittings.

Applications

- Rigid PVC plastics
- PVC and ABS connections
- Swimming pool pipes
- Outlet pipes
- Cable conduits
- PVC gutters
- Irrigation pipes
- Drink-water pipes
- Gas pipes
- Sewage pipes
- Industrial pipes.

ACRYLIC SEALANT & SILICONE

ACRYLIC SEALANT

Uniseal Acrylic Sealant is an odourless, paintable, washable and UV-proof sealant used to seal household joints, such as stairs, skirting boards and floorboards. More wider application of our sealant include caulking, jointing and filling cracks and gaps mainly in the maintenance and construction industry.

UNISEAL SILICONE

Uniseal Clear Silicone is a gel like adhesive that is excellent for sanitary-ware applications such as sealing around bathroom and kitchen fittings:

- baths,
- showers,
- sinks, and
- toilets where a clear seal is required.

Uniseal Clear Silicone retains its elasticity and stability in both high and low temperatures. It is also resistant to other chemicals, moisture and weathering.

UNI ALL-ADHESIVE GLUES

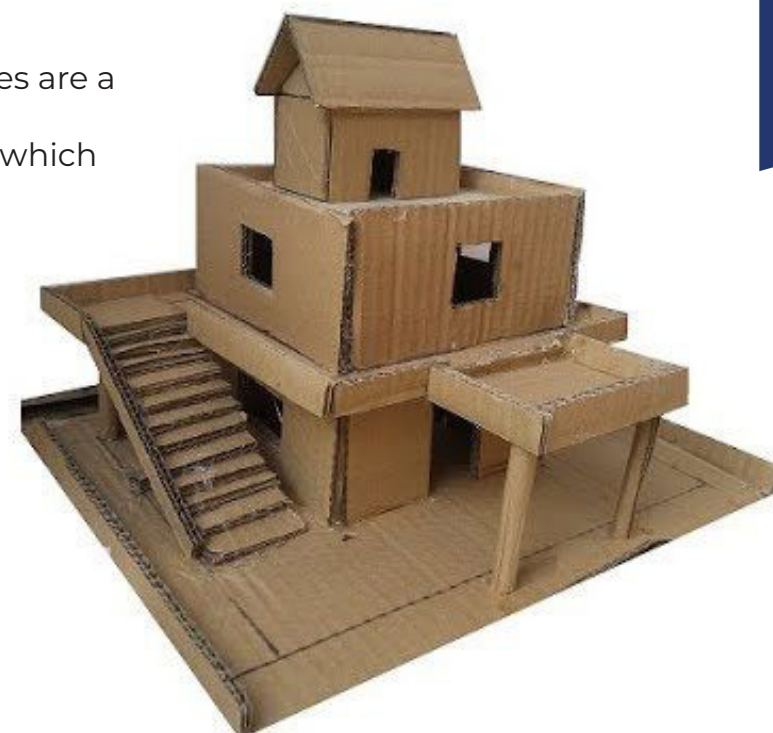

Uniseal All-Adhesive glues are a group of acid-free multi-purpose adhesive which dries clear.

Properties:

- Fast-drying
- Non-warping

Used for bonding:

- Paper and cardboards
- Cork and wood
- Metal
- Ceramics
- Textiles
- Foam
- Plastic.
